# CHALLENGING BEHAVIOUR

**JOIN US** for a free parent workshop regarding challenging behaviour. How are behaviours learned? How do behaviours function for children? Let our presenter, Kristy Petroni, help you understand the function of behaviour and provide ideas that make challenging behaviours less likely to occur. This information session is for **all** parents.

**Drinkwater Elementary**  
**Wed. Jan. 24 6:30 p.m. - 8:00 p.m.**

The Drinkwater Elementary PAC is proud to host Kristy Petroni, P.O.P.A.R.D. consultant and educator (<https://www.autismoutreach.ca/>) as she speaks to parents, guardians, teachers, and educational assistants regarding "challenging behaviour". Everyone Welcome!
