

The DLVC program helps learners who seek choice and independence keep pace with their peers without losing connection to a school community. We do this so learners can safely learn from home without learning alone.

Distance Learning Virtual Classroom

OUR DAILY CONNECTIONS

- Intentional creation of a virtual classroom community.
- Connecting through whole class, small groups, and individually.
- Student choice for learning pieces and ways to show your thinking.
- Cross class collaboration and community-building activities.
- Flexible schedules for independent learning time.
- Focus on Literacy and Numeracy including in Science, Social Studies, and the Arts.
- Embedded Core Competency learning to enrich growth and understanding of concepts taught.
- Balance of interactive experiences and independent learning.

PERSPECTIVES

“

My favourite part about distance learning is the morning Zoom meetings when I see my friends and learn something new every day. My teacher, Ms. V, was super nice and funny- she told us lots of jokes during our zoom classes. She also assigned us to a chat where we could message her if we had a question and she would respond instantly. Ms. V asked us what our goal was during the year and I wanted to learn cursive writing. One week we got sheets to practice cursive! I also really enjoyed the art assignments and I did them with my little brother- he can't draw but he scribbled with different colours. And the best part is that I could do my assignments in my PJ's! So comfortable!

”

- Aizah, DLVC Student

WE ARE THE DLVC

Our teachers collaborate regularly to ensure we meet the needs of our learners. Our Virtual Classroom teachers intentionally connect classes together as a school to help foster a positive school community.

Our program focuses on connection and community while offering a flexible option for independent learning.

WE SUPPORT:

- Families who wish to learn from home with the daily support of a virtual classroom teacher.
- Children who enjoy learning together with a peer group in a classroom setting.
- Families learning together at home while still being connected to a Virtual School.
- Learners who seek choice and independence while also receiving descriptive feedback and guidance from a teacher on their next steps.
- Purposeful learning experiences using a combination of both technology and written materials.
